Professional Summary

Motivated and detail-oriented **MERN Stack Web Developer** with hands-on experience in building full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**. Strong foundation in JavaScript and modern web development practices. Passionate about learning, problem-solving, and delivering clean, functional, and scalable web solutions. Actively seeking **freelance opportunities and internships** to gain real-world industry experience.

Technical Skills

Frontend: React.js, HTML5, CSS3, JavaScript

Backend: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, GitHub, VS Code, Cloudinary

Basic Knowledge: Java

Projects

AyurSetu – Appointment Booking Web Application

Role: Full Stack Developer

Duration: Aug 2025 – Sept 2025

- Developed a complete **appointment booking website** for an Ayurvedic doctor using the MERN stack.
- Implemented **user-friendly interfaces** with React for patients to book appointments easily.
- Built RESTful APIs using Node.js and Express.js for handling appointments and data flow.
- Integrated **MongoDB** for secure and efficient data storage.
- Used **Cloudinary** for cloud-based image upload and management.
- Deployed the frontend application for live access.
